

Daily Health Screen for Covid-19 for anyone entering IDC Childcare facilities

Please do not serve in or bring your child to IDC Kids Childcare if you have been exposed to COVID-19 or are showing symptoms of fever, chills, shortness of breath, difficulty breathing, new cough, and/or new loss of taste or smell.

Parents and volunteers must answer “no” to all of the following questions in order for them or the child to be permitted in IDC Kids Childcare:

Have you or any of the children you are dropping off:

1. Been diagnosed with COVID-19 since they were last at child care?
2. Had any of the following symptoms since they were last at child care?
 - Fever
 - Chills
 - Shortness of breath or difficulty breathing
 - New cough
 - New loss of taste or smell
3. Had close contact (been within 6 feet for a cumulative total of 15 minutes over a 24-hour period) with a person with undiagnosed symptoms of COVID-19 or diagnosed with COVID-19 in the last 14 days? (You may skip this question if you are fully vaccinated and have no new symptoms.)
4. Has any health department staff or a health care provider been in contact with the person you are dropping off and advised them to quarantine?

If you or your child answered yes to any of the above questions, you and your child will be permitted to return to childcare after:

- 10 days of quarantine have been completed and no symptoms have been reported during daily monitoring;
- 7 days of quarantine have been completed, no symptoms have been reported during daily monitoring, and the individual has received results of a negative antigen or PCR/molecular test on a test taken no earlier than day 5 of quarantine.
